Performance Reflections

You are required to answer the following questions based on your role.

Team member - complete this section as part of your Performance Reflections:

Reflect on your performance and development since your Q2 Talent Assessment by answering the following questions:

- 1. What learning and development actions have you taken to improve in your current role and advance your career overall (e.g., training programs, challenging projects, mentoring, or coaching)?
- 2. What development opportunities would help you grow in your current role and support your long-term career goals?
- 3. Highlight your key achievements relative to Cisco's Performance Framework: Business Outcomes and [Guiding Principles](#).

Team leader - complete this section as part of your team member's Talent Assessment:

Reflect on the performance and development of your team member since the Q2 Talent Assessment and answer the following questions:

- 1. Share tangible examples of how this team member actioned on their agreed upon development priorities outlined in their Q2 Talent Assessment.
- 2. Highlight this team member's key achievements relative to Cisco's Performance Framework: Business Outcomes and [Guiding Principles](#).

Manager Reflection	Employee Reflection
Response: Bruce continues to deliver value to Cisco. Often we find ourselves needing something he pioneered 12+months ago to drive a customer conversation ahead. Bruce's attitude, inclusiveness and overall competence put him in a key position to represent Cisco in front of customers in leading edge use-cases and provides him the opportunity to share that knowledge back to help accelerate everyone.	Response: 1. I've developed SONiC and Cilium subject matter expertise such that I'm now probably one of the top 3-4 Cisco SMEs for both technologies. Have also dug into AI/ML training architectures, including the host software stack, and the role K8s, CNIs, and Multus all play, and the potential for SRv6 to provide Elephant-Flow-Balancing across the fabric. I've also embraced AI tools such as BridgeIT and Cursor (thanks!) and have seen fantastic productivity results. 2. Continue to work Cross-BU and across the sales org to evangelize and drive the Enterprise+SP SRv6+SGT effort with Josh. I need to spend more time working up the executive stack :). As for career goals, I

intend to play a major role in the SRv6 for AI backend fabrics effort as MSFT and Oracle (hopefully its all real), as I believe a win at either will provide a significant boost to future DSE candidacy.

3. My technical leadership and evangelization of cross-platform SRv6 and the importance of host/K8s networking and policy are showing results as we are seeing buy-in across product teams and greater engagement by SEs in K8s networking (Adobe, TMo, Bell, etc.). In fact, I would like to think my advocating that we acquire Isovalent (beginning in 2021) played some role in moving the acquisition decision forward. I've also served as Nacho's official PSE mentor and have been part of the extended teams for both Marina Ferreira's and Masi's successful candidacies.

Expectations Overview

This team member is meeting expectations for their role across both areas of Cisco's Performance Framework (Business Outcomes and [Guiding Principles](#)).

Comment: Bruce and I discussed how he has ample opportunities to learn and innovate, and self study is the best method for him to develop technically. We agreed an important step for him to consider on the road to DSE is adopting some longer term mentees to help grow the team.
