

**McDougall, Bruce**

Principal Solutions Engineer

Manager: Brook Crossman

Evaluated By: Brook Crossman

**Talent Assessment (1HFY26)**

Organization: Americas Service Provider - Web Sales  
Engineering (Brook Crossman)

Location: USA-SEATTLE

07/28/2025 - 01/23/2026

**Performance & Development Reflections**

**For your own Performance & Development Reflections:**

What achievements and development progress have you made since Q2FY26?

- *Connect impact to Cisco’s Performance Framework (Business Outcomes & Guiding Principles).*
- *Open the [Guiding Principles and Leadership Expectations Guide](#) and find your grade level. Align your achievements and development progress with the Guiding Principles expectations for your grade. For People leaders: Leadership Expectations are new and do not need to be reviewed for this reflection.*
- *Sales employees (excluding Splunk employees) include data from [Exec Console](#) in your reflections.*
- *Lastly, detail any development that contributed to your success (e.g., learning, mentoring, stretch assignments).*

**People Leaders -- For your team member's Talent Assessment:**

What achievements and development progress has your team member made since Q2FY26?

- *Highlight your team member's delivered results, contributions, and demonstration of the Guiding Principles, aligning to Cisco’s Performance Framework (Business Outcomes & Guiding Principles).*
- *Open the [Guiding Principles and Leadership Expectations Guide](#) and find your team member’s grade level. Align their achievements and development progress with the Guiding Principles expectations for their grade. For People leaders: Leadership Expectations are new and do not need to be reviewed for this reflection.*
- *Sales leaders (excluding Splunk employees) include data from [Exec Console](#) in your assessments.*
- *Note progress against Q2 learning and development priorities.*

| Manager Reflection                                                                                                                                                                                                                                                                                                                                                                   | Employee Reflection                                                                                                                                                                                    |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p><b>Response:</b> Bruce continues to have a significant impact leading frontier projects in AI forwarding and teaching others. His innovation is on pace to break (ASP) records with patents being filed and awarded and he sets the standard for teamwork and technical depth. The recent recognition he received in the Pinnacle awards speaks to his technical capabilities</p> | <p><b>Response:</b> Pinnacle Award winner - member of the SRv6 team that won the Market Impact award</p> <p>Got MIG to commit to deliver SRv6 on SONiC G200 in Q1 of 2026 for Oracle and Microsoft</p> |

and his strong reputation for teamwork. Cisco is lucky to have him teaching our teams and customers, representing us externally and driving innovation in the portfolio.

Gathered and compiled data from accounts around the world to build a business case for Cilium-SP feature development and estimated MIG pullthrough revenue; Isovalent: \$34M, MIG: \$323M

Developed an SRv6 DC-Frontend POC for Microsoft that walked through two key use cases. Mohan at Microsoft has since installed my setup in his own lab and demoed internally.

Developing SRv6 multi-tenant design for Oracle AI backend

After years of internal evangelization, E2E SRv6 (and fun stuff like SRv6 + SGT) has legs: Cisco is either making investments or very close to making investments in SRv6 for ISE, IOS-XE/Catalyst, Nexus, SONiC, SDWAN, SASE, Cilium

Delivered Stay Ready Friday SRv6 sessions Part 1 (Cilium) and Part 2 (SONiC/PyTorch); both very well received

Lead or co-inventor over the past 6 months: 1 patent pending approval of USPTO, 3 approved patents being drafted by legal, 2 patent submissions pending internal review, and 2 CIPOL drafts to be submitted in the next week or so

### For your own Performance & Development Reflections:

What are your top 1-3 work goals (with metrics) and 1-2 development goals over the next 6 months?

- *Include headings to differentiate between work and development goals.*
- *Open the [Guiding Principles and Leadership Expectations Guide](#) and find your grade level. Document your role and behavioral priorities aligned to the Guiding Principles. If you're a people leader, document your role and behavioral priorities aligned to the Guiding Principles and Leadership Expectations.*
- *Visit [Skills Studio](#) to find relevant courses and resources aligned to your development goals. Explore offerings aligned to our Guiding Principles, practice with a professional coach, act on feedback and take ownership for continuously improving how you work*

People Leaders -- For your team member's Talent Assessment:

What are the top 1-3 work goals (with metrics) and 1-2 development goals for this team member over the next 6 months?

- *Include headings to differentiate between work and development goals.*
- *Open the [Guiding Principles and Leadership Expectations Guide](#), find your team members' grade level and document role and behavioral expectations aligned to the Guiding Principles and Leadership Expectations (if applicable).*
- *Review Job Architecture information, including the [Global Leveling Guide](#) (Leader access only).*
- *Visit [Skills Studio](#) to find relevant courses and resources aligned to your development goals. Explore offerings aligned to our Guiding Principles, practice with a professional coach, act on feedback and take ownership for continuously improving how you work.*

| <p><b>Response:</b> We are aligned on the priorities. We are both eager to see some tension in the system if multiple customer projects accelerate!</p> | <p><b>Response:</b> Facilitate delivery of SONiC SRv6 on Cisco 8000 G200/P200 for Microsoft and Oracle, and facilitate their testing of the technology, architecture, and scaled multi-tenant design with a goal of production trial/deployment in the 2nd half of 2026</p> <p>Assist Microsoft account team in securing disagg T2 and disagg RH franchises. Assist Oracle account team in successful AI Backend trial of G200 SONiC</p> <p>Secure commitment from Isovalent Eng to complete MVP development of SRv6 and bring it from Beta to GA</p> <p>Nacho passes all PSE gates and is prepping for the panel interview</p> <p>Deliver The Comprehensive SRv6 for AI Demonstrator with Marty, Josh, and Brent</p> <p>With Vaughn: deliver a comprehensive segmentation architecture for cloud-native and DC (and possibly campus) for TMobile...and make it repeatable</p> |

If you are completing your own Performance & Development Reflections - answer this question:

Over the next 6 months, what learning and development will help you grow in your role and career?  
*Focus on the next 6 months: skills to build, experiences to gain, or support you need. Capture longer-term career aspirations if relevant. Be sure to include at least one AI-related development action. Development aligned to the Guiding Principles is accessible [here](#).*

If you are completing this Talent Assessment for one of your team members - answer this question:

What are this team member's development goals for the next 6 months?

*Capture the learning and growth goals they've committed to over the next 6 months (e.g. skills development, learning, mentoring, stretch assignments etc.). Capture longer-term career aspirations if relevant. Include at least one AI-related development action. Development aligned to the Guiding Principles is accessible [here](#).*

#### Manager Reflection

**Response:** Bruce and I are perfectly aligned here. He has a great plan to accelerate his usage of AI tools and teach others on the way.

#### Employee Reflection

**Response:** Continue to learn new ways to maximize the impact of AI tools on my work

I'm definitely using AI tools a lot as a brain-extender to account for and capture details, which frees me up to spend more brainpower on being creative and thinking outside the box. One of my goals over the next 6 months will be to get better and synthesizing the two outputs into a high impact package or deliverable (document, presentation, github, patent application, etc.) for whichever project I'm working on

### For your own Performance & Development Reflections:

What is one practical change or habit your leader could adopt to better support your growth and performance?

### People Leaders -- For your team member's Talent Assessment:

What is one specific behavior or skill shift that would help this team member accelerate their growth and prepare for future opportunities?

#### Manager Reflection

**Response:** We discussed this a bit. I think there is an possibility to hand some of the project requests to other people as a development or visibility opportunity - we will discuss these as they come along.

#### Employee Reflection

**Response:** I'm pretty widely considered a great person to work with, so I get a lot of requests and probably say 'yes' too much. Can you help me improve my filter?

## Performance Framework Assessment

My team member is meeting expected Business Outcomes for their role

*Consider consistency and quality of work, results achieved, and alignment with set expectations.*

**Criteria:**

- *Yes = frequently and consistently meets expectations.*
- *No = infrequent, inconsistent, or requires significant support*

An inability to consistently meet the expected Business Outcomes is considered not meeting expectations.

Manager Reflection

Rating: Yes

Response:

My team member is demonstrating Cisco’s Guiding Principles  
*Reflect on how they Think Really Big, Play to Win, and Drive Durable Growth. Use the [Guiding Principles and Leadership Expectations Guide](#) to assess by grade level.*

- Criteria:
- Yes = frequently and consistently shows expected behaviors (Think Really Big, Play to Win, Drive Durable Growth).
  - No = infrequent, inconsistent, or requires significant support.

An inability to consistently demonstrate these behaviors is considered not meeting expectations.

Manager Reflection

Rating: Yes

Response:

Team Leader Acknowledgement

I have had a Performance & Development Discussion with my team member that included feedback on prior performance and setting forward-looking role expectations and development priorities.

Manager Reflection

Rating: Yes
